December 8, 2009

Congratulations Skylands Pediatric,

I am delighted and excited to tell you that your practice is included on "The List" of NJ's Favorite Kids' Docs, featured in *New Jersey Family* magazine's December Issue. Congratulations on receiving this prestigious honor!

Our list, compiled this year for the first time, includes the names of nearly 400 children's doctors, dentists, and other pediatric healthcare professionals (representing more than 50 specialties) in New Jersey, all of whom have been nominated by local parents. Only those physicians who have earned the trust, admiration, and professional respect of moms are included. Listings cannot be bought. For this reason, a spot on NJ's Favorite Kids' Docs list is a singular honor.

I am also thrilled to present you with this recognition certificate. Please feel free to display it in your office or waiting room so all visitors notice it and feel proud for you. It really is an honor to be recognized by your patients' parents for your extraordinary care of their children.

Now and in the future, NJ's Favorite Kids' Docs listings will serve as a vital resource to thousands of NJ moms. This single source, listing "personal recommendations" to pediatric professionals, will provide guidance to NJ parents who might otherwise not know where to turn for their family's health concerns.

I speak for our whole organization in wishing you congratulations, again, on making "The List," and for your continued professional success. You've earned the well-deserved respect of parents for your outstanding dedication and service to New Jersey's youngest patients.

Sincerely,

Cindy Mironovich
